

```
1 #include <stdio.h> //'stdio.h' contains declaration of 'printf()'
2
3 // Entry-Point Function => main() => Valid Return Type (int) and No Parameters  ↗
   (void), Hence No Command-Line Arguments
4 int main(void)
5 {
6     //code
7     printf("Hello World !!!\n"); //Library function
8     return(0);
9 }
10
11
```
