```
1 #include <stdio.h>
2 int main(void)
 3 {
        //variable declarations
 4
 5
        int i_num, num, i;
 6
 7
        //code
 8
        printf("\n\n");
 9
        printf("Enter An Integer Value From Which Iteration Must Begin : ");
10
        scanf("%d", &i_num);
11
12
13
        printf("How Many Digits Do You Want To Print From %d Onwards ? : ", i_num);
        scanf("%d", &num);
14
15
        printf("Printing Digits %d to %d : \n\n", i_num, (i_num + num));
16
17
18
        i = i_num;
19
       while (i <= (i_num + num))</pre>
20
            printf("\t%d\n", i);
21
22
            i++;
23
        }
24
        printf("\n\n");
25
26
        return(0);
27
28 }
29
```
