```
#include <stdio.h>
 2 int main(void)
 3 {
 4
        //variable declarations
 5
        int i_num, num, i;
 6
 7
        //code
 8
        printf("\n\n");
9
        printf("Enter An Integer Value From Which Iteration Must Begin : ");
10
11
        scanf("%d", &i_num);
12
13
        printf("How Many Digits Do You Want To Print From %d Onwards ? : ", i_num);
        scanf("%d", &num);
14
15
        printf("Printing Digits %d to %d : \n\n", i_num, (i_num + num));
16
17
18
        for (i = i_num; i <= (i_num + num); i++)</pre>
19
        {
            printf("\t%d\n", i);
20
21
        }
22
23
        printf("\n\n");
24
        return(0);
25
26 }
27
```
