```c
1  #include <stdio.h>
2  int main(void)
3  {
4      //variable declarations
5      int i;
6
7      //code
8      printf("\n\n");
9
10     printf("Printing Even Numbers From 0 to 100: \n\n");
11
12     for (i = 0; i <= 100; i++)
13     {
14         // condition for a nuber to be even number => division of number by 2 ⤴
               leaves no remainder (remainder = 0)
15         // if remainder is not 0, the number is odd number...
16         if (i % 2 != 0)
17         {
18             continue;
19         }
20         else
21         {
22             printf("\t%d\n", i);
23         }
24     }
25
26     printf("\n\n");
27
28     return(0);
29 }
30
```
